Cleared SSC with 91.2%

PROFESSIONAL EXPERIENCE

CSI-TCET | Creative Member(Working Committee)   **Aug 2023 - May 2024**
- Designed graphics and posters for tech fest promotions, social media, and campus events.
- Collaborated with the team to design engaging posts aimed at capturing a wider audience.

TECHNICAL SKILLS

- **Frontend:** ReactJS, JavaScript, HTML, CSS, Material UI, Tailwind CSS, Bootstrap, Framer Motion
- **Backend:** NodeJS, ExpressJS
- **Database:** Firestore, MySQL, MongoDB
- **Tools:** Postman, Git, GitHub, Firebase

PROJECTS

PlantBuddy | Tech Stack: React.js, Tailwind CSS   **Jan 2025**
- Integrated the frontend with ML models via a Flask backend for real-time disease detection and recommendations.
- Implemented multilingual support using Google API to enhance accessibility for diverse users.

Dynamic Event Calendar | Tech Stack: React.js, Tailwind CSS   **Dec 2024**
- Implemented Local Storage to persist event data, allowing users to save and access events even after page reloads.
- Enabled users to manage, search, and export monthly events in JSON format for easy data sharing.

AwareHer | Tech Stack: HTML, CSS, JavaScript, ExpressJS, MongoDB   **Apr 2024**
- Built a platform to educate women on rights, policies, and financial literacy through an intuitive interface.
- Integrated blog-sharing features and dynamic content rendering to foster community engagement.

ACHIEVEMENTS

- **Published a research paper** on "Scraping Data from Google Maps: Comparisons and Experimentations" in **Springer Journal** (IC-ICN 2024).
- **Top 7** in Ideathon: Proposed EmpowerHer, an AI platform for women's growth.
- **Hacktoberfest 2023 & 2024:** Enhanced UI, docs, and Botpress chatbot with **4 PRs** yearly.
- Achieved **Postman API Expert Certification**, validating proficiency in API testing.
